1. Cold Outreach Email — Agencies & Studios

Subject: Mobile PT Partner — Overflow & Client Referrals

Hi {{agency_name}} team,

I'm a mobile personal trainer based in {{location}}, currently working with a client base across {{service_area}}.

I'm reaching out because I know agencies your size often have overflow — clients who need sessions covered at short notice, or enquiries you can't place with your current roster. I'd like to be your go-to for that.

What I offer:

- Reliable, fully insured mobile PT covering {{service_area}}
- Available early mornings (from 5:30 AM) and evenings (until 8:30 PM)
- Experience working independently — no hand-holding required
- Full client management handled on my end

I've also built my own client operations platform, so admin, scheduling, and communication are handled professionally. I work like a technical partner — you refer or subcontract, I deliver, your client stays happy.

If you have overflow you'd like covered, I'm happy to jump on a 15-minute call this week.

Best,

3. Client Cancellation Policy Email

Subject: Missed Session — {{session_date}}

Hi {{client_name}},

I'm following up regarding your session on {{session_date}} at {{session_time}}, which was cancelled with less than 24 hours' notice / did not take place as scheduled.

As outlined in your client agreement, sessions cancelled within 24 hours of the scheduled start time are charged in full. This session fee of {{session_fee}} is non-refundable.

This policy exists to protect both our time. I hold that slot exclusively for you and cannot reallocate it at short notice.

The charge will be applied to your next invoice / deducted from your session block accordingly.

If there are exceptional circumstances you'd like to discuss, feel free to reply to this email and I'll review on a case-by-case basis. Outside of that, the policy stands as agreed.

Looking forward to your next session on {{next_session_date}}.

4. Referral & Upsell Script

Text / Short Email Version:

Hi {{client_name}},

Quick one — you've been putting in solid work and I appreciate it.

I'm opening up a couple of new client spots this month. If you know anyone who's serious about getting results — not just thinking about it — I'd love an introduction. Anyone you refer gets their first session at half price, and you get a free session added to your block.

Alternatively, if you've ever thought about training with a partner, I offer pair sessions at a reduced rate per person. Same results, shared cost — some clients find it keeps them more accountable too.

Let me know if either works for you.

Key details to include when sending:

- Referral reward: 1 free session added to your block
 - New client offer: 50% off first session
 - Pair session rate: {{pair_session_rate}} per person (vs {{standard_rate}} solo)

5. Enquiry Response Email

Subject: Your PT Enquiry — Next Steps

Hi {{client_name}},

Thanks for getting in touch — I've received your enquiry and I'll be following up shortly.

Here's what happens next:

Step 1 — Consultation call

I'll reach out within 24 hours to arrange a free 15–30 minute call. This is where we talk through your goals, current fitness level, schedule, and whether we're a good fit.

Step 2 — PAR-Q & Health Screening

Before we start any sessions, you'll need to complete a PAR-Q (Physical Activity Readiness Questionnaire) and a short health screening form. This is standard practice and ensures I programme sessions that are safe and appropriate for you specifically. I'll send this digitally — it takes around 5 minutes.

Step 3 — First session

Once screening is complete and we've agreed on a programme, we book your first session and get started.

A few things worth knowing upfront:

- Sessions are mobile — I come to you (home, park, or agreed outdoor location in {{service_area}})
- I require 24 hours' notice for cancellations — late cancellations are charged in full
- Payment is taken in advance per session or as a block booking

If you have any questions before our call, reply here and I'll get back to you same day.

Talk soon,
